

Fuck my parent for give me bad genetics. People would say "Your parent can't control genetics". But their can't control their action! I wish I could give my dad a condom before sex so I am not exist.

IM STILL ALIVE BUT IM BARELY BREATHIN [JUST PRAYIN] COS WHEN A HEART BRAKES NO IT DONT BRAKE EVEN NO WHAT AM I SPOSED TO DO For the first time ever. We hugged, talked through all our feelings, went out on a date. It all felt so real, I was standing for an eternity just talking to her. I think it was a therapy session deep from my subconscious, she reassured me against all my worries. And of course I woke up. That really hurt. Being loved unconditionally feels awesome, shame it can only happen in my dreams though.

**fuck a porno I just wanna feel loved**

IT IS SO STRANGE TO BE ANYTHING AT ALL AND YET I AM HERE TOTALLY ISOLATED AND ALONE SO I AM JUST SOMEONE NOT SOMEONES SOMEONE He is slowly becoming sexually active and dating casual girls. I'm happt for him but i feel even worse and more alone. Anyone else experienced something similar? I would love to cheer for me but i feel pain inside me..

I had a similar experience. im 20 and lost my fucking virginity to an escort. Plus i was super drunk lol. I couldnt cum at all too and it felt worse than masturbation. So thats why you have sex with people you have connection with like a girlfriend.

IM SORRY IM JUST ANXIOUS I WISH THIS DIDN'T HAPPEN BUT I JUST CARE ABOUT YOU AND I WISH THIS WASNT HAPPENING BUT IT IS IM SORRYI THINK WE SHOULD GO TO SLEEP

Almost 19 M here, My life have been in a depressive spiral just consuming and lying down. I just go to college, do homework, do art, stay up late, go to bed.

Even though I'm 19 and I have "so much to live" and "you're still young" but I don't see that anymore because what can I expect in the future, like really, I'm still going to be the same person but with a job, no kids, no partner, just living. I already feel like an old man who has missed out on so much. It's only a matter of time till things get worse

**I intentionally smoke a lot to cope and to die early.**

I haven't ended my life because it just feels unfair to end it on such a low note when I've worked so hard and sacrificed so much and for nothing but this emptiness and feelings of suicide and having been betrayed by loved ones.

I finally saw a post that hit me home. Im 23, never had a girlfriend and at this point, my view of myself is so low that this meme I saw literally explained exactly how I felt. 'I am so chopped I feel like a predator for even talking to women my age' Anyone relate? I genuinely fear making women uncomfortable if I talk to them in any way other then, 'hey did you get that bloodtest sent to lab?'.  

**Maybe I'll find someone like this one day. They both look so happy.**

I DONT WANT TO BE YOUR FRIEND I JUST WANT TO BE YOUR LOVER

**IM GONNA  
CUM**
